

Talk Tips To Go - March 2019

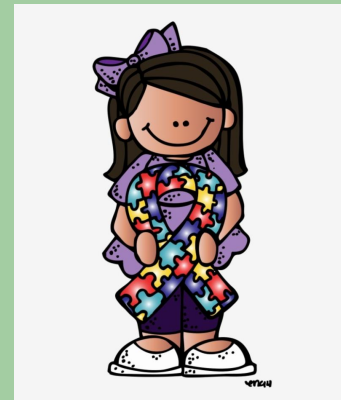

Article of the Month

Autism...It's different for girls!

Approximately 4 boys for every one girl are diagnosed with autism spectrum disorder (ASD). Therefore, scientists have focused their research on boys, and we have had little information about how autism might present differently in girls.

We're fortunate to be the recipient of approximately \$125,000 each year from United Way of Central Ohio for early childhood speech intervention. Astonishingly, even this amount isn't quite enough to make sure every child gets the speech therapy they need!

That's why we need your help in this year's Knock Out Poverty competition! Prizes are available for organizations who have the most in donations and the most donors! That means every small dollar amount helps us win!
