We Improve Communication for Life

*We've been serving the unique communication
needs of central Ohioans*

since 1923.

Our experienced team of highly skilled professionals
provides personalized care to meet your family's
unique needs.

"We absolutely love our partnership with CSH! The SLPs provided to our center are awesome additions to our special-needs preschool program. Each therapist delivers high-quality services to all the children on their caseload. The willingness to meet the children where they are and build on their skills is an amazing skill that these therapists possess."

– Dahlberg Learning Center

"Columbus Speech & Hearing is a joy to work with. They do our speech and hearing screenings every year in our preschool and it's always been such a great experience. We love the partnership we have with their organization and plan to continue it for years to come."

– Columbus JCC
